EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Carmen Patti on February 19, 2007.

The application has been amended as follows:

Claim 26.

An apparatus, comprising:

a long period Bragg grating that comprises a wavelength attenuation range;

a pump diode laser optically coupled directly to a first side of a long period Bragg grating via a first optical splice;

an amplification fiber that is optically coupled directly to a second side of the long period Bragg grating via a second optical splice;

wherein the pump diode laser and the amplification fiber are arranged in a forward pumped broadband fiber source configuration without an optical multiplexer between the light source and the amplification fiber;

wherein a wavelength of the pump optical signal is outside of the wavelength attenuation range of the long period Bragg grating;

wherein a wavelength of the output signal is within the wavelength attenuation range of the long period Bragg grating;

wherein the long period Bragg grating is configured to transmit the pump optical signal from the pump diode laser to the amplification fiber and attenuate the output signal from the amplification fiber to the pump diode laser.

The following is an examiner's statement of reasons for allowance: the combination of the prior art made of record does not reasonably teach with a motivation for an apparatus having a light source and amplification fiber arranged in a forward pumped broadband fiber source configuration without an optical multiplexer between the light source and the amplification fiber wherein a long period Bragg grating is employed to attenuate one or more output signals..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Erin D. Chiem whose telephone number is (571) 272-3102. The examiner can normally be reached on Monday - Thursday 9AM - 5PM.
